EXPERIENCE

Software Engineer Intern
07/2025 - 09/2025
Mazdev

- Engineered production chatbot platform with YAML configuration enabling non-technical users to create 20+ bot variants.
- Developed RAG engine using Pinecone achieving 94% semantic accuracy across 50K+ embedded documents.
- Implemented automated testing framework for 150+ scenarios reducing QA cycle by 50%.
- Optimized embeddings reducing latency by 45% for user-facing interactions.

Fullstack Developer
03/2024
Mazdev

- Architected AI-powered legal contract review platform for 40+ enterprise clients reducing analysis time by 60%.
- Built full-stack system (React/Next.js + FastAPI) processing 500+ monthly contract reviews with 100K+ MongoDB documents.
- Implemented Docker CI/CD pipeline reducing infrastructure setup time by 75%.
- Designed optimized data models supporting large-scale document storage.

Web Developer Intern
08/2024 - 09/2024
Steros

- Designed responsive website generating 30% increase in service inquiries.
- Integrated real-time notifications improving engagement by 25%.
- Built MySQL schema supporting multi-tenant data separation with zero-downtime migration.

ACADEMIC PROJECTS

PromptCraft
05/2025 - 06/2025
AI-Powered NFT Generation & Auction Platform

- Built a full-stack AI-powered NFT generation and real-time auction platform supporting 100+ concurrent users.
- Implemented WebSocket and SSE-based bidding system reducing update latency by ~60%.
- Developed scalable NestJS REST and GraphQL APIs handling 1K+ daily requests.

Technologies: Vue, Velzon, NestJS, WebSocket, GraphQL, REST API, SSE

Uptime Monitoring
01/2025 - 02/2025
Real-Time Monitoring & Analytics System

- Developed a real-time URL monitoring system tracking 50+ endpoints with automated health checks.
- Built analytical dashboards for uptime, latency, and failures reducing outage detection time by ~70%.
- Designed ASP.NET Core backend processing thousands of monitoring checks per day.

Technologies: ASP.NET Core, Entity Framework, SQL Server, C#

EDUCATION

INSAT - National Institute of Applied Sciences and Technology
2022
B.S. Engineering in Software Engineering
EQF Level 7. Specializations: Full-Stack Development, AI Systems, Cloud Architecture.

SKILLS

JavaScript | React | Next.js | NestJS | FastAPI | ASP.NET Core | Python | SQL | Docker

ACTIVITIES

EVENT MISSION LEADER
Junior Enterprise INSAT
Aug 2024 - Jun 2025

- Orchestrated INSAT Enterprise Forum 6.0, coordinating 30+ corporate partners for 1500+ participants.
- Led 40+ organizers through strategic planning and resource allocation.

OPERATIONS MANAGER
WinterCup 7.0 | ACM INSAT
Feb - Mar 2025

- Managed operations for national programming competition attracting 150+ participants.
- Developed procedures and improved volunteer coordination efficiency.
- Maintained competition integrity across technical checkpoints.
